

Agalic Rodriguez-Duboc

MD, PHD IN DEVELOPMENTAL NEUROBIOLOGY

Trained as a general physician and passionate about research, I am currently finalizing my PhD dissertation in the field of cellular and molecular neuroscience. My research is focused on cerebellar development and apnea of prematurity.

Education

From September
2019 to May 2023

PhD in Molecular and Cellular aspects of Biology

[Rouen University](#) Mont-Saint-Aignan, France

Specialty in Neurosciences

From October 2019
to November 2019

Certification in Animal Experimentation

[Paris Descartes](#) Paris, France

From September
2018 to June 2019

Master's in Research: Neurosciences (MSc)

[Rouen University](#) Mont-Saint-Aignan, France

Molecular, Cellular, and Integrated Neurosciences - Cum Laude

October 2017

USMLE (United States Medical Licensing Examination) Step 1

[National Board of Medical Examiners](#) Philadelphia, PA, USA

From September
2011 to June 2017

Medical Doctor (MD)

[PUCMM University](#) Santiago, Dominican Republic

Magna Cum Laude

Research Experience

From September
2019 to May 2023

Doctoral Candidate

[INSERM U1245 CBG](#) Rouen, France

- Topic: "Cellular, molecular and vascular alterations induced by apnea of prematurity in the murine cerebellum."
- Advisor: Dr. Delphine Burel.

From January 2019
to June 2019

Master's Research Internship

[Inserm U1239 DC2N](#) Mont-Saint-Aignan, France

- Topic: "Effects of perinatal hypoxia on the expression of genes involved in oxidative stress."
- Advisor: Dr. Delphine Burel.

From August 2015 to
April 2017

Medical Dissertation

[Departamento de Investigación, PUCMM University](#) Santiago de los Caballeros, Dominican Republic

- Topic: "Psychological factors associated with nicotine addiction in college students."
- Advisor: Dr. Zahirá Quiñones de Monegro.

From March 2014 to
December 2014

Research Assistant Experience

[Laboratory of Nanosciences, PUCMM University](#) Santiago de los Caballeros, Dominican Republic

- Topic: "Hypercaloric effect of biofunctionalized carbon nanotubes as a photothermal agent on *Staphylococcus aureus*."
- Advisor: Dr. Oliver Pfaff.

Publications

- Leroux S, **Rodriguez-Duboc A**, Arabo A, Basille-Dugay M, Vaudry D, Burel D. 2022. Intermittent hypoxia in a mouse model of apnea of prematurity leads to a retardation of cerebellar development and long-term functional deficits. *Cell Biosci.* 12(1):148.
- **Rodriguez-Duboc A**, Rivière M-A, Basille-Dugay M, Debonne A, Burel D. Apnea of prematurity induces oxidative stress-mediated transcriptional changes in the murine cerebellum (in preparation).

Posters

LARC Neurosciences 2019 Effects of perinatal hypoxia on oxidative stress-related gene expression in the murine cerebellum.

JED EDNBISE 2022 Apnea of Prematurity induces molecular, cellular, and vascular alterations in the murine cerebellum: focusing on angiogenesis.

Talks

JED EDNBISE 2021 Therapeutic potential of neurotrophic factors on cellular and molecular alterations induced by Apnea of Prematurity in the murine cerebellum.

ISTW Disabilities and Integration 2022 Cellular and molecular alterations induced by Apnea of Prematurity in the murine cerebellum.

Computer skills

Teaching and Supervision

From September 2019 to March 2023

- Supervision of Students and Interns**
[Rouen University](#) Mont-Saint-Aignan, France
- Supervision of a MSc intern during 3-month
 - Training of several students rotating through the laboratory

From October 2014 to November 2015

- Teaching Assistant**
[PUCMM University](#) Santiago, Dominican Republic
- Topics: Anatomy, Embryology, and Histology.
 - Lab and practical sessions

Medical Experience

From March 2017 to May 2017

- Social and Family Medicine Internship**
[Centro de Salud Integral Bella Vista](#) Dominican Republic
- HIV Clinic; Epidemiology; ER

From October 2016 to February 2017

- Surgery and Pediatrics Internships**
[Hospital Metropolitano de Santiago](#) Dominican Republic
- Surgery; Pathology; Oncology; Pediatric and Neonatal ICU

From August 2016 to March 2017

- OB/GYN and Psychiatry Internships**
[Hospital Regional Universitario José María Cabral y Báez](#) Santiago de los Caballeros, Dominican Republic
- Peripartum; Partum; Ambulatory / Consults

From May 2016 to August 2016

- Internal Medicine Internship**
[Saint Barnabas Hospital](#) New York, NY, United States
- Neurology; Rheumatology; Pneumology; Nephrology

Practical Skills

- Laboratory and Experimentation**
- Preparation and mounting of anatomo-pathological samples
 - Bacterial culture (agars, selective media, antibiogram)
 - Preparation and analysis of blood smears
 - Molecular biology (RNA extraction, reverse transcription...)
 - Laser capture microdissection
 - Quantitative RT-PCR
 - Pipetting system robot programming
 - Conventional microscopy
 - Immunohistochemistry
 - Transparisation and tissue clearing
- Research and Communication**
- Experimental design
 - Statistical modeling (GLM, GLMM...)
 - Scientific communication
 - Theoretical and practical classes
 - Writing scientific reports
 - Scientific illustration
 - Grant application writing
 - Translation and simultaneous interpretation
- Surgery and clinical skills**
- Minor surgery
 - Pre and post-operative follow-up
 - Complete physical examination
 - Differential diagnosis
 - Pharmacology
